

Dual Display USB Voltage & Current Tester

Description:

This is a USB Current & Voltage Tester. It is a very useful device for USB port checking and chargers, you can check if the USB port is active, if a battery of external device is charging or if current is not exceeding limits. It comes with a bright LED Segment display.

Features:

1. Enabled to measure USB devices at no load and over load condition, also for USB terminals testing.
2. Current and voltage display in turn, easy to use and practical.
3. Small and easy to carry, no need to connect power supply.
4. Wide scope of application, mobile phones, electronic products, etc.

Specifications:

- Measuring range: Voltage DC 3V - 9V / Current 0 - 3A (up to 5A)
- Accuracy: Voltage $\leq \pm 1\%$, Current $\leq \pm 2\%$
- Interface: USB 2.3, USB 3.0
- Dimensions (L x W x H): 7.32 x 2.8 x 1.5cm
- Weight: 25g
